

Are you, or have you been, a participant in a Medically Tailored Meals (MTM) program?

Are you willing to share your experience about how Medically Tailored Meals has impacted your health?

This NYU-based study welcomes potential participants who:

- Are current or past clients of God's Love We Deliver medically tailored meals program(s) who are 18 years of age or older, AND, either:
- Have a heart condition or heart health risk factor(s) and live with or care for a child or children,

OR,

- Are or were pregnant at any time during the receipt of meals.

.....

Purpose of the study:

- Gain insights into how MTM impacts both adults and children.
- Understand the ways MTM can better support families to inform future programs.

.....

Participation is voluntary and involves a virtual confidential interview for 60 to 90 minutes. Participants who complete the study will receive an Amazon or Target \$25 gift card for their time.
